## Timestamp

19 June 9:32pm to 20 June 11:25pm

## Total Time

Nil

## Location

Discord and WhatsApp

## Attendees

- Marabel
- Gabriel

## Discussion Details

### Topic 1: Wireframes Task Distribution

Opened By: Gabriel

Location: Zoom

### Discussion Points:

On 19 June 9:32pm, Gabriel sends a the task distribution for the wireframes on Discord.

Marabel asks if the team can have a meeting to discuss the master layout of the wireframes. No response was given.

On 20 June 10:06am, Marabel pings Gabriel on Discord and asks him for a reply by 2pm.

Gabriel responds that maybe Wednesday will be good.

Gabriel asks the team on WhatsApp if they are available for a meeting.

## **Conflict 1: Use of Communication Tools**

**Parties Involved: Gabriel, Marabel**

**Location: WhatsApp**

### **Conflict Points:**

Marabel requests Gabriel to use Discord for broadcasting messages. Marabel suggests Gabriel to use the '@everybody' ping on Discord if he needs to notify everyone. Marabel states that WhatsApp is not allowed for the project.

Gabriel asks Marabel who said that WhatsApp isn't allowed for the project. He states that not everyone has discord on their phones.

Marabel states that it is mentioned on Canvas and by Bobby (tutor). Marabel also states that the team can download Discord on their phone if they don't have it.

Gabriel makes the following arguments:

1. Not everyone brings their laptop and turns it on (for Discord)
2. Bobby (tutor) is not our god and that the team doesn't need to follow him if the team is not allowed to use WhatsApp
3. He doesn't get the notification both on his laptop and his phone even if he uses it as his main chat application
4. The team can be strict on somethings but don't be strict on something like chat applications
5. WhatsApp can be an alternative when a team member doesn't reply Discord

Gabriel states that he is okay with using Discord even if he doesn't turn it on everyday.

Marabel clarifies that Bobby isn't a god. However, Bobby oversees the team's project and is in charge of ensuring that the team fulfills the course requirements.

Marabel states that regardless, she understands his perspective on the matter and will contact Bobby for his opinion on the issue. Gabriel responds, 'Okay'.

Gabriel apologizes for 'being a bit rough but that (he) was just (giving) his opinion'.

Marabel responds she will probably have to send the email on Tuesday as she is not available today.

Marabel states that in the meantime, she can compromise and use WhatsApp if needed.

## **Conflict Conclusion**

### **Shared Agreements**

Marabel and Gabriel both agree to email Bobby for his opinion on the use of communication tools
