Topic 1 - GitHub Update

Timestamp: 28/11/22 11:22am

Location: WhatsApp

Opened By: Marabel

Discussion:

Marabel pings Gabriel and states that she has updated the display for GuideDetails and fixed the Masterpage drop down height into GitHub.

Marabel states that for the final presentation, she will be making the dummy data for the Guide feature and will send it to him once its done. Gabriel acknowledges this and states that he has made some dummy data as well. Marabel acknowledges Gabriel's message.

Marabel asks Gabriel to make sure that his dummy data displays well with the new layout. Gabriel acknowledges.

Gabriel pings Marabel and asks if she meant like this. Marabel responds and asks Gabriel if he meant to send a screenshot.

Gabriel sends a screenshot of his laptop screen and states that he is referring to the screenshot.

Marabel sends a screenshot of her laptop screen and states that the screenshot is her sample. Marabel states that it is suppose to be more like a tutorial, something similar to w3 schools and less like an article. Gabriel notes this. Marabel states that other than that, the layout is correct.

Topic 2 - Database Check

Timestamp: 28/11/22 5:10pm

Location: WhatsApp

Opened By: Marabel

Discussion:

Marabel pings Gabriel and asks to see his database data for tutorialGuideCategory. Marabel sends a screenshot of her SSMS application as an example.

Gabriel sends a screenshot of his SSMS. Marabel acknowledges.

Topic 3 - Dummy Data

Timestamp: 28/11/22 5:29pm

Location: WhatsApp

Opened By: Marabel

Discussion:

Marabel attaches an SQL file and states that it is the dummy data for tutorialGuide. Marabel states that it only contains 4 guideDetails for 1 category called 'Canvas'. Marabel states that for the images to load, Gabriel will need to retrieve them from the GitHub under 'uploads' folder.

Marabel states to let her know if it does not work on Gabriel's laptop. Gabriel states that he will try later.

Topic 4 - EditGuide Error

Timestamp: 28/11/22 8:52pm

Location: WhatsApp

Opened By: Gabriel

Discussion:

Gabriel pings Marabel with a screenshot of a webpage error and states that he cannot use the code functions. Gabriel states that adding function works but when trying to edit the code fails.

Gabriel sends another screenshot of a webpage display error and pings Marabel again. Gabriel states that he can add the Canvas part but not the Zoom part. Gabriel responds again and states that he might understand that part already.

Gabriel sends another screenshot of the same webpage error and states that this is what happened when he tried to edit. Marabel responds and states that she is busy with another project and will take a look at it tomorrow.

Gabriel acknowledges and states that it needs to be finished before tomorrow night as he wants to do the presentation tomorrow night.

Marabel asks Gabriel if these screenshots also produce error in Visual Studio. Gabriel states that he thinks so and asks Marabel if she can edit it in her laptop.

Gabriel states that he understands how to save data already but just unable to update the data.

Marabel responds that she will try at a later time when she is free. Gabriel acknowledges.

Marabel sends a screenshot of the webpage on her laptop. Marabel states that she will need to go in 1 minute. Marabel states that the screenshot is the loaded webpage on her end and it works fine. Marabel asks Gabriel if he can make sure that he has all the necessary components for the webpage first. Marabel states that she will respond to the messages later.

Gabriel responds that he does not have the images apart from zoom. Gabriel states that he has all the images for Zoom but that he just cannot update. Gabriel suggests that he thinks the image path is wrong.

Marabel asks Gabriel if he can explain to her in detail what happened before the error occurred. Marabel suggests some questions for Gabriel: What were you doing? What page were you on? What were you clicking on?. Marabel states that Gabriel will need all the images in order to use her dummy data.

Gabriel responds and list the following three cases:

"I click edit then i havent changed any data then i click update (first case)

I try to update by change the image (second case)

I try to update by change the woed (third case)"

Gabriel also states that he will try to add the images later.

Marabel clarifies and asks Gabriel if all three cases gives him the error. Gabriel responds 'yupp'.

Marabel acknowledges and states that she will try on her laptop first and let him know her results.

Gabriel acknowledges.

Marabel sends a screenshot of a snippet of code. Marabel states that she has found the error and fixed it and will commit the new changes to GitHub. Marabel lets Gabriel know that if he just want to add the changes to his files, he may go to EditGuide.aspx.cs and add lines 121-124 after line 120 as shown in the screenshot. Gabriel acknowledges. Marabel acknowledges.

Topic 5 - Error

Timestamp: 29/11/22 4:56pm

Location: WhatsApp

Opened By: Ezra

Discussion:

Ezra pings Marabel and states the he will send the updated code in a while and asks Marabel to try and run it on her end as Gabriel is experiencing errors on his end. Ezra states that the error code is: "One or more project in the solution were not loaded".

Ezra states that he has sent it to Marabel.

Marabel asks Ezra if he has tried googling online for solutions first. Gabriel responds that he has already tried. Ezra tells Marabel to just try.

Marabel asks where they have sent her the code. Gabriel responds that he has sent it through email.

Marabel asks to know why they specifically asked for her to run the code on her end. Gabriel sends a screenshot of the error code and tells Marabel to just try to run it.

Marabel states to Gabriel that she would like to know the reason why they asked. Gabriel tells Marabel again to just try and run it.

Gabriel states that he has made a project again but after coming back from buying food, it cannot be loaded.

Marabel restates that she would still like to know why Gabriel is asking her about the issue specifically as apposed to asking Henry or Darna.

Gabriel states that he has sent the code to Henry as well and was just asking if Marabel knows how to fix it. Gabriel states that he was just asking for help.

<A second conflict occurred at this point in this discussion. Refer to Week 13 Conflict Discussion 1 for details>

Gabriel states that they were just asking because they havent found the solution. Gabriel asks that maybe Marabel can help as they dont know the reason.

Gabriel states that since they still can open the file, it is better to do the presentation tonight.

Marabel state that she has tried running it on her laptop but also got the same error. Marabel states that this is her first time running into this error as well so she also does not know how to fix it.

Darna states that he has also tried but he also cannot run it at his laptop.

Henry pastes the error code he received.

Topic 6 - Presentation Plan

Timestamp: 29/11/22 5:14pm

Location: WhatsApp

Opened By: Gabriel

Discussion:

Gabriel states that they are going to do the presentation without script.

Gabriel states that he is still able to open the file without using the solution file by opening it one by one.

Gabriel states to prepare for presentation.

Marabel asks if there are any presentation slides. Gabriel responds that there are no presentation slides since they are only doing a demo.

Topic 7 - Presentation Plan 2

Timestamp: 29/11/22 7:05pm

Location: WhatsApp

Opened By: Ezra

Discussion:

Ezra sends a link of the group report:

https://docs.google.com/document/d/1BHo_n1wseuulAbuaPX9TYWb-zmX8eQHEGWEt5RGvTw8/edit?usp=sharing

Ezra states to each write a brief description of their page on the document and use it for scripting later when presenting.

Topic 8 - Presentation Recording

Timestamp: 29/11/22 7:59pm

Location: WhatsApp

Opened By: Ezra

Discussion:

Ezra sends a link to a google slides for the presentation:

https://docs.google.com/presentation/d/1abFIMjy4dPIWWxmzVD04eMdJ5Lg2AYOb_L0eDRBN2tY/edit?usp=sharing

Ezra states to be ready, they will be doing the presentation in a while.

Ezra then sends a link to a zoom meeting and asks team members to join now.

Marabel states that she need more time to fill up the document and script. Marabel states that she will join when she has completed them.

Topic 8 - Waiting to Start Presentation Recording

Timestamp: 29/11/22 9:22pm

Location: WhatsApp

Opened By: Marabel

Discussion:

Marabel pings Gabriel to let her know when he is ready to join the zoom meeting.

Ezra states that they will start in a bit. Marabel states to let her know when it is starting

Gabriel then states that he is inside the meeting discussion.
