Discussion Details

Topic 1: Information about Code Error Changes

Opened By: Gabriel

Location: Classroom

Discussion Points:

Gabriel tells Marabel that he is still experiencing errors in his code. Marabel notes this.

Gabriel tells Marabel that he may change his approach to making this set of codes if he is unable to resolve it. Marabel asks Gabriel if his code will affect other team members work or if it needs other team members work. Gabriel states no. Marabel responds that it is fine for him to change.

Topic 2: Tier Application Change Notice

Opened By: Gabriel

Location: Classroom

Discussion Points:

Gabriel states that Darma is using 2 tier application for his code. Gabriel states that he may switch to using a 2 tier application.

Marabel clarifies with Gabriel and states that she thought Ezra wanted to do a 3 tier application. Gabriel states that he is experiencing some errors coding for a 3 tier application and may switch to 2 tier if he is unable to resolve them.

Topic 3: Error Fix Help

Opened By: Gabriel

Location: Classroom

Discussion Points:

Gabriel asks Marabel to help with an error he is facing on the login page. Gabriel shows Marabel his login screen with a red error text above his textbox that states to the effect of: <There is an error when trying to login. Please contact the developers to fix this issue.>

Marabel states that this error looks like the error format that she writes in. Marabel asks Gabriel if he referenced her codes. Gabriel responds yes. Marabel states that to find the error, Gabriel has to go into the backend code and remove the try/catch blocks surrounding his login function.

Topic 4: Code Error Clarification

Opened By: Gabriel

Location: Classroom

Discussion Points:

Gabriel shows Marabel an error that he is facing about post permissions coming from her codes.

Gabriel asks Marabel if she also experiences this code error in her own files.

Marabel states that she has already put in lines of code in her own application to fix this issue. Marabel also states that this has already been published in her own GitHub. Marabel states that this changes has also been integrated and published into Gabriel's GitHub.

Gabriel notes this and states that he is experiencing this error as he is still working on his own codes and have not yet retrieved the latest updates from the GitHub.
