Topic 1 - Week 5 New GitHub & Clarifications (Continuation)

Timestamp: 10 October 2022 12:02am

Location: WhatsApp

Opened By: Marabel

Discussion:

Marabel asks Gabriel when is the latest that integration will be completed.

Gabriel states that this week he wants to finish the front end. Gabriel states that he is making his crud operation for his pages. Gabriel states that it is better to make their own admin pages based on each individual's respective pages. Gabriel states that the team can take his admin panel code.

Marabel clarifies and asks Gabriel when is the latest he will be integrating the old pages into the new repository.

Gabriel states that his repository consist of what he had in his old repository with his updated page and code. Gabriel states that he uploaded it 3 days ago.

Marabel clarifies again and states that she is referring to the repository with hers and Darma's pages called FreshmenCode. Marabel re-clarifies again and states that she is trying to ask Gabriel when he will integrate the pages from FreshmenCode to his new repository.

Gabriel apologises and states that he maybe will do it after he finishes his crud operation design which should be this week.

Marabel restates Gabriel's answer that it will be integrated by the end of this week and acknowledges his deadline.

Gabriel apologizes to Marabel as it took a long time for him to understand what she told him. Marabel states not to worry and that Gabriel can ask to clarify with her next time.
