Discussion Details

Topic 1: Project Database

Opened By: Marabel

Location: Classroom

Discussion Points:

Marabel asks Gabriel which database the project will use. Marabel clarifies if it is the build in visual studio database. Gabriel responds that using SQL Management Studio would be a better choice.

Marabel asks how version control of the database will be maintained if the team uses SQL Management Studio. Gabriel states that he thinks Darma will use his computer as the main server.

Marabel clarifies if she should ask Darma about the database instead. Gabriel replies yes.

Topic 2: Testimonial

Opened By: Gabriel

Location: Classroom

Discussion Points:

Gabriel states that he will talk to Ezra about testimonials and get him to help make them for the project.

Topic 3: Database Server

Opened By: Marabel

Location: Discord

Discussion Points:

Marabel asks Darma if he can create the SQL server for the project as she needs it to test her codes. Darma responds that he hasn't made his admin pages and clarifies if she really wants the database first. Marabel states that that is fine as she needs the database for her front end pages.
