Topic 1 - Code Error

Timestamp: 24 October 2022 5:47pm

Location: WhatsApp

Opened By: Darma

Discussion:

Darma states that for the club admin page, he thinks that Marabel used the wrong master page. The master page that was used is the user masterpage.

Marabel states that she is not planning to complete that feature for the final. Hence, it can be left alone unless someone else wants to take over the feature.

Darma acknowledges.

Topic 2 - Project Plan

Timestamp: 26 October 2022 4:38pm

Location: WhatsApp

Opened By: Marabel

Discussion:

Marabel asks Gabriel what the plan is for tomorrow. Marabel asks if the team is integrating the website again.

Gabriel states that the class is on Friday. Gabriel also states that he will integrate the codes. Gabriel notes that Bobby had asked about progress for the next class.

Marabel acknowledges.

Topic 3 - Integration Update

Timestamp: 27 October 2022 11:58am

Location: WhatsApp

Opened By: Gabriel

Discussion:

Gabriel states that he has integrated Marabel's code in his repository.

Marabel sends a screenshot of the repository's commit messages and ask to clarify if the highlighted portion is the commit for the integration. Gabriel agrees and asks Marabel if she has seen it.

Marabel states that she is still looking through the files. Gabriel notes this and asks Marabel to inform him if there is any errors.

Marabel states that she has changed the masterpage for the user but don't think Gabriel has updated it in the GitHub.

Gabriel states that he sees this and states that he will update it later.

Topic 4 - Project Plan

Timestamp: 27 October 2022 12:03pm

Location: WhatsApp

Opened By: Marabel

Discussion:

Marabel asks Gabriel if the team will be using his laptop to present the website on Friday. Gabriel states that his laptop is abit broken and asks to use someone else's laptop.

Gabriel then asks Marabel if they can use her laptop. Marabel agrees however she needs to check the integration first. Gabriel notes this.

Marabel asks the team to send her the new database table scripts if they have made changes to it. Marabel also asks the team to send her their INSERT scripts for data. Gabriel and Ezra note this.

Marabel notes to Gabriel that she noticed Darma updated his files into her GitHub in the morning. Marabel asks Gabriel if he has integrated Darma's and Henry's files as well.

Gabriel states that he has yet to and that he will integrate it tonight.

Marabel asks Gabriel if he can give an estimate of when it will be done so that the others can have time to check if their codes are working. Marabel states that she also needs to check if her database works with the codes.

Gabriel states that he cannot give an estimate of the time but he should finish it before midnight. Marabel notes this.

Marabel asks Gabriel if she can integrate them into his GitHub herself. Marabel states that she can do it now so that Gabriel will have lesser work later.

Gabriel states that Marabel can and thanks her.

Topic 5 - Integration Code Error

Timestamp: 27 October 2022 1:04pm

Location: WhatsApp

Opened By: Marabel

Discussion:

Marabel pings Gabriel and states that she checked through the code. Marabel informs Gabriel that CourseGuide files are no longer is use and that they have already been changed to tutorialGuide in her GitHub. Marabel asks Gabriel not to overwrite or modify her own codes without her permission. Marabel writes in bold that Gabriel should always ask for clarification.

Marabel states that she will leave the courseGuide files in the GitHub so that he can clean them up afterwards.

Marabel states that she will update them again when integration is uploaded to GitHub.

Gabriel notes this. Gabriel states that he is also finding an error in the edited masterpage. Hence he is using his own masterpage.

Gabriel states that he is not trying to be mean but he thinks that for editing, editing should be done in userhome and course aspx files. This is because if there is an edit in the masterpage, all pages will be impacted. (heavily rephrased because of grammar)

Marabel states that she does not quite understand what he is referring to and asks if Gabriel can explain it in simpler terms. Marabel asks if Gabriel is asking him not to edit the masterpage.

Gabriel states that he can edit the masterpage. However, when he runs the masterpage, it creates an error and affects other workpages.

Marabel asks Gabriel what the error is as displayed in Visual Studio.

Ezra states that when Marabel edits the masterpage, it affects some other pages. However, it is okay as it is just some quick fix.

Gabriel sends 2 screenshots of his error lines.

Ezra states that he will send his error once he reaches school.

Gabriel states that its okay now as he has fixed the error

Marabel replies to one of Gabriel's screenshots and asks if he has checked the backend page. Marabel states that she added codes to the backend page.

Gabriel states that he will integrate it later.

Gabriel apologizes to Marabel if he came out as mean. Gabriel states that he is not trying to be mean however, he was getting asked about the same problem yesterday.

Gabriel states that its okay, he will try to integrate it again later.

Marabel responds to Gabriel's apology and states not to worry as they have agreed the week before to inform each other if they had issues with each other. Marabel states that the main goal for the team is to complete the project. Hence, Marabel understands if things happen because it is stressful.

Marabel states that she has integrated her code to Gabriel's GitHub. Marabel also states that she has a spare copy of the previous files if Gabriel wants to roll back the commit.

Gabriel thanks Marabel and states that he also has a copy.

Topic 5 - Code Error

Timestamp: 27 October 2022 4:49pm

Location: WhatsApp

Opened By: Gabriel

Discussion:

Gabriel asks the team if anyone knows how to fix the follow issue: An error has occurred when updating an item. Please contact the developers about the issue.

Marabel asks Gabriel what page it occurred on and what action he was taking when it occurred. Marabel states that the error line is a fail safe from her page.

Gabriel states that he cannot integrate adminregister as it keeps repeating about the error in the class file.

Marabel asks Gabriel if he wants her to help him fix it.

Marabel states that the line occurs when trying to update a data row in the database. However, if the error is from Marabel's tutorialGuide pages, she doesnt see why it would pop up when Gabriel is integrating adminregister.

Gabriel states that it is okay, he will try first.

Gabriel states that Marabel's Guide Category can work in his Visual Studio. Marabel notes this.

Topic 6 - Integration Update

Timestamp: 27 October 2022 9:19pm

Location: WhatsApp

Opened By: Gabriel

Discussion:

Gabriel states that Darma, Henry and Ezra have also integrated their codes into Gabriel's GitHub.

Marabel notes this and states that she assumes no one has made changes to their database.

Gabriel replies nope and states that he just added what Marabel added in the database. Marabel notes this.

Topic 7 - Masterpage Change Clarification

Timestamp: 27 October 2022 9:31pm

Location: WhatsApp

Opened By: Ezra

Discussion:

Ezra asks Marabel what she added to the masterpage when she changed it. Marabel states that she added a nav bar drop down in the front end and the retrieval of database data in the backend.

Ezra states that he will update the new one. Marabel notes this.

Topic 8 - Database Scripts Request

Timestamp: 27 October 2022 9:33pm

Location: WhatsApp

Opened By: Marabel

Discussion:

Marabel requests the team to send their INSERT scripts by midnight for tomorrow's review.

Marabel gives a last call again for SQL scripts.

Gabriel states that he deleted column adminAge in adminData

Ezra states that he didnt edit the database tables hence he has no scripts

Henry states that he has no changes as well.

Marabel asks if the team has database data.

Ezra and Gabriel states that they have no changes. Marabel notes this.

Topic 8 - Integration Update

Timestamp: 28 October 2022 12:12am

Location: WhatsApp

Opened By: Marabel

Discussion:

Marabel states that she has downloaded and checked the latest files from Gabriel's GitHub.

Marabel informs the team that the user master page has been changed from when she last integrated in the afternoon.

Marabel asks the other team members who integrated after her at 2pm to recheck that their codes are still inside. Gabriel notes this.

Topic 9 - Resource Sharing

Timestamp: 28 October 2022 12:43pm

Location: WhatsApp

Opened By: Gabriel

Discussion:

Gabriel shares the following website: https://learn.microsoft.com/en-us/aspnet/web-forms/overview/getting-started/getting-started-with-aspnet-45-web-forms/display_data_items_and_details

Henry shares the following website: https://www.c-sharpcorner.com/article/upload-files-and-save-into-database-in-binary-format-using-asp-net/
